Specification

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In regards to claim 4, it is unclear how the second sleeve can also have a barb as an interlock means.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Arisaka (US 6,048,147). Arisaka discloses a fastener assembly comprising a two part fastener having including a first sleeve (1) with a flanged (2) end and a second sleeve (21) also having a flanged end (22) where the first sleeve is received in the second sleeve and interlocked therein by a barb (5) and; a pin (11) slidably engaging an aperture (2a) of

the two part fastener including a head (12) at one end and a barb (at 14) at an opposite end which engages the two part fastener in a snap fit.
